

OXLEY SOLAR FARM NEWS AS AT 20 SEPTEMBER 2023

Project Update for Oxley Solar Farm: SSD - 10346

Over recent times Oxley Solar Development has actively reviewed and taken into consideration extensive feedback received from the community, government and other organisations. This has constructively informed the projects planning and progress.

The revised project proposal and associated clarifying information were provided to the Department of Planning & Environment (DPE) during 2023. Oxley Solar Development has worked closely with the DPE over this time to properly address environmental issues.

Following these extensive community, government and stakeholder consultations, on the 20 September 2023 the DPE has now given “Recommendation” status to the project.

Further details are available here: <https://www.planningportal.nsw.gov.au/major-projects/projects/oxley-solar-farm>

The next stage of the Environmental Planning assessment process will involve the Independent Planning Commission (IPC). The project was referred to the IPC on 20 September 2023.
